

# GeoSync Campus Mapping

Comprehensive . Easy to Use . Secure . Reliable

## Virtual Campus (Digital Twin) Technology...

GeoSync Campus Mapping produces a virtual representation of your campus (digital twin) providing web and mobile software for viewing, sharing, analyzing, and managing critical safety and facility information. GeoSync Campus Mapping offers a unique and flexible approach to building a virtual campus, providing affordable digital pathways for campus operations of any size and technical level.

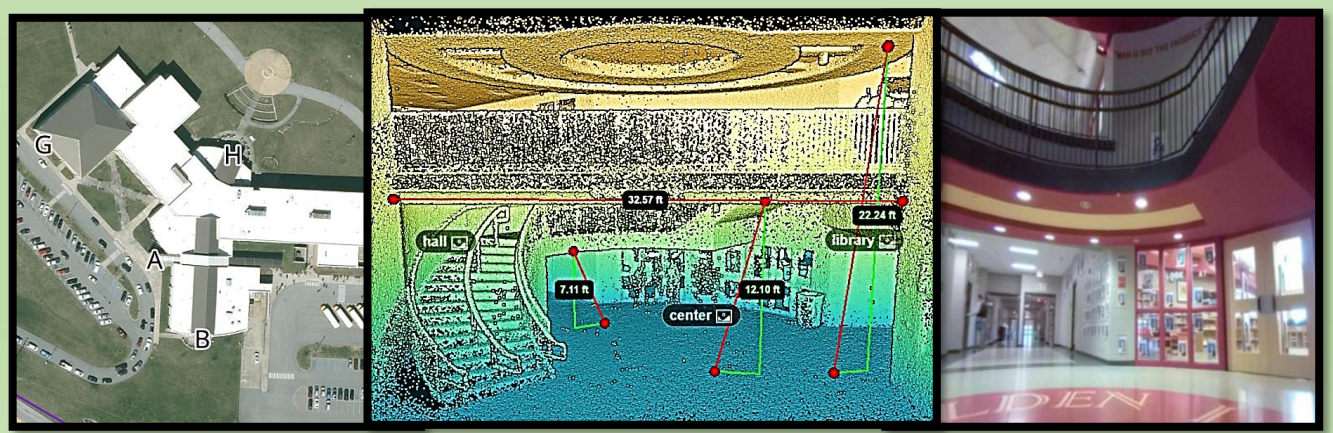

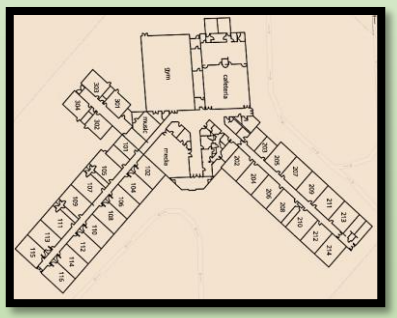

## Improve Campus Safety...

- Reduce emergency response times
- Securely share critical safety information
- Interior addressing with photos and video links
- Map floor plans - exits - shut offs - hazards
- Meets E911 & NG911 mapping requirements

## Increase Operational Efficiencies...

- Quick & easy access to facility information
- Easily share with designers & suppliers via web
- Floor plans - equipment - utilities - EHS items
- Quickly measure distances - heights - areas
- Track and document O&M activities

# GeoSync Campus Mapping

Comprehensive . Easy to Use . Secure . Reliable

## Floor Plan Mapping

- ❑ Existing Architectural Drawings, or
- ❑ Create from scratch using 3D scanning
- ❑ Easily create a searchable room database
- ❑ Securely share with anyone

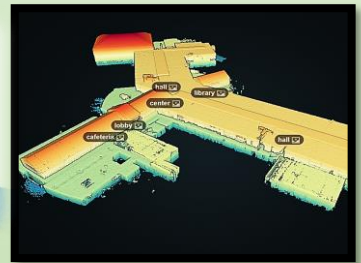

## Photo Documentation

- ❑ Traditional digital photos or 360° photos
- ❑ Attach to anything and share
- ❑ Allow anyone to capture and link photos
- ❑ Rooms, equipment, maintenance

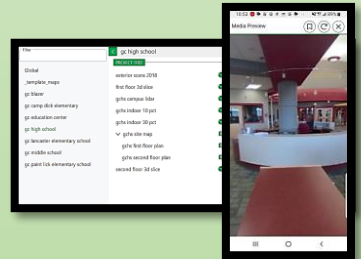

## 3D Models & Scanning

- ❑ Includes workflows for LIDAR scanning
- ❑ Take advantage of 3D data models
- ❑ Viewing tools built-in with measuring
- ❑ Share 3D data securely

## Mobile, Web, and Desktop Software

- ❑ Cloud applications for IOS, Android, & Windows
- ❑ Easy to use for searching, viewing, and capturing
- ❑ Campus dashboard(s) for quick access to critical info
- ❑ Secure access with unlimited users

## Sustainable and affordable technology

- ❑ Designed for campuses of all sizes
- ❑ Scalable - add information as your budget allows
- ❑ Open & flexible framework - match YOUR needs
- ❑ Do the work yourself with training & technical help
